Lexington, KY 40536

Dear Jim:

Some time ago, we briefly discussed the Tobacco Research Council research grant program. We are currently looking at a number of factors which may play a role in an individual's propensity to develop cancer of the bladder, and I would be grateful if you could give me any information about the funding availability and method of application to the Tobacco Research Council for research grants.

I hope to see you again in the not-too-distant future.

Sincerely yours,

WRF

William R. Fair, M.D.
